We urge you to fully support and complete this survey; the first of an annual study designed to measure the health and welfare issues of all three sizes of Schnauzer in the UK.

We hope you will find time to complete a form for each dog you own. It is important for the breeds that the survey does record healthy dogs as well as those with any health conditions. Additional copies can be downloaded from the club website, available at Club shows or from the Health Co-ordinator.

This study is supported by The Giant Schnauzer Club, The Miniature Schnauzer Club, The Northern Schnauzer Club and The Schnauzer Club of Great Britain. Each club will issue this form with their own Club's newsletter. Once you have submitted information to the Health Survey in 2009, you do not need to complete forms received from other clubs.

The first two pages are of vital importance and do not require you to provide any details of name or identity. However, if you can, please complete the more personal details on page 4. All details will remain strictly confidential and only broad conclusions will be published as part of the Breed Health Plans promoted by the Schnauzer Clubs and The Kennel Club.

If you have any particular health issue you wish to raise, please feel free to contact any one of the Health Co-ordinators (Karen Carroll, Barry Day, Chris Ellingworth or Tony McDermott) - contact details can be found in the Club's magazine.

On behalf of all three sizes of Schnauzer, our very grateful thanks for taking the time out to complete this Health Survey
